2x ex-demo Juniper EX 4300 PoE+48P Ethernet Switch

Access Board Configuration: 48-port 10/100/1000BASE-T

48 POE ports

POE Budget: 900W

Equipment is in TOP condition – has never been used

Built in 2014

Detailed explanation listed below!

Price on request:

Excl. VAT

Excl. shipping & insurance costs

Excl. custom fees

Technical information:

The EX4300 line of Ethernet switches delivers the performance, flexibility, and scale required for both campus and data center Gigabit Ethernet (GbE) access switch environments. When deployed in a Virtual Chassis configuration, the EX4300 delivers the operational simplicity and higher logical scale that businesses demand. Combining compact, pay-as-you-grow economics and low power and cooling with the performance, availability, and port densities of chassis-based platforms, the EX4300 enables businesses to deploy with speed and agility to increase revenue and improve productivity.

The EX4300 is onboarded, provisioned, and managed in the Juniper Mist Cloud Architecture. Mist Wired Assurance delivers better experiences for connected devices through AI-powered automation and service levels.
