

FOR SALE!

2x new Sony PXW-Z280 camcorders

4K 1/2" 3-chip compact camcorder with newest CMOS-Technology

Recording in 4K 50p/60p

17x optical Zoom lens able to zoom from 30.3mm to 515mm

Each Sony PXW-Z280 camcorder is consisting of:

Lens hood - pre-installed to the Camcorder

EVF eyecup

Battery pack BP-U30 or U35

AC Adaptor/charger BC-U1A

Power code

USB cable

Shoulder strap

Warranty booklet

"Before Using this Unit"- Sheet

CDROM "Operating instructions"

Coming with 12 months warranty

Price on request:

Excl. VAT

Excl. shipping & insurance costs

Excl. custom fees

2x new Sony PXW-Z280 camcorders

Technical facts:

World's first 1/2-type 3CMOS Sensor for broadcast 4K

The Z280's all-new Exmor R™ imager is custom-designed for broadcast 4K acquisition. Its three 1/2-type Exmor R™ CMOS deliver a deep depth of field with superb image quality. Red, blue, and green light are independently captured by separate image sensors, contributing to high resolution, high sensitivity of F12 (59.94p) and wide dynamic range. An advanced LSI (featuring intelligent noise reduction and enhanced detail reproduction) delivers remarkably lifelike 4K 4:2:2 10-bit images. Even if you're delivering in HD, your recordings will capture detail and image texture that HD sensors simply cannot see.

17x professional HD zoom lens with three independent rings with end-stop and large focal length

The PXW-Z280 is equipped with a 17x professional zoom lens able to zoom from 30.3mm to 515mm (35mm equivalent). The 1/2-inch type lens has three independent control rings with end-stop, which allows manual control of focus, zoom and iris, making for better and faster adjustment. The image can be enlarged in HD mode up to 34x zoom equivalent while maintaining Full HD resolution thanks to digital extender.

Spectacular HDR performance

Demand for HDR content is increasing and Z280 offers you a choice of two powerful workflows.

- S-Log3 is the proven choice for premium applications where you wish to capture as much data as possible for the ultimate flexibility in grading
- Instant HDR Workflow is all about speed. Shoot, edit and view content in Hybrid Log-Gamma (HLG) to deliver content quickly without compromising on imaging expression and quality of content

World-leading handheld 4K HDR performance

An all-new 4K 3CMOS 1/2-type sensor with a deep depth of field and class-leading performance provides the pinnacle of 4K HDR performance in your hand. Face Detection AF keeps your subject in focus, while HLG and S-Log3 provide stunning HDR to suit any workflow.

Revolutionary networking capabilities

Deliver your content faster wherever you are. PXW-Z280 is the world's first camcorder with Dual Link Cellular capability for double the uplink performance and reliability.

*Requires PWS-110RX1A/110RX1.

The complete package for professionals

Unpack and shoot from day one. Advanced XAVC-Intra and XAVC-Long for 4K QFHD and HD, plus MPEG HD422, MPEG HD and DVCAM to support any workflow. Familiar Sony control layout and operation minimise training requirements.

Amazingly fast precision auto focus

The PXW-Z280 features newly developed Face detection AF. You can choose between Face Priority AF and Face Only AF. Simply keep the person in frame and however you move to obtain a better angle, you can be confident the PXW-Z280 will keep your subject in pin-sharp focus.
