Excl. custom fees

2x used HEROCast BacPac HD wireless transmitter:

Key Features:

The HEROCast is a miniature transmitter that allows GoPro HERO3+Black and HERO4 cameras to broadcast live, HD wireless video.

The HEROCast transmitter enables professional broadcasters to deliver engaging, live content with immersive POV footage and unique perspectives that are synonymous with GoPro. HEROCast integrates with GoPro cameras and its ecosystem of mounts, and delivers the most versatile, mountable broadcast solution available and transmits high definition 1080i/50 or 1080i/59 and 720p/50 or 720p/59 video using H.264 encoding with low glass- to-glass latency.

The HEROCast BacPac directly connects to the housing of a GoPro camera, delivering an integrated, water-resistant solution for immersive live action footage.

The transmitters operate in the professional licensed frequency band of 1.95GHz – 2.7GHz, and require a matching RF diversity receive infrastructure.
