Direct attach cables for Riedel Medionets

3x used Riedel Medionet MicroN Frames for sale

Technical Specification of each frame:

Key Features:

- 12x in, 12x out up to 3G SDI
- 2x MADI SFP slot
- 1x Gbit Ethernet
- Powerful integrated processing functions including sample rate conversion, delays, test pattern generator
- 16 channel audio embedder / de-embedder
- All 3 frames are loaded with the Medionet MicroN
- 1 Frame has additional 1x Multiviewer App, which is switchable in the configuration software

MediorNet MicroN is software-enabled, app-based hardware that can be many different things: It can be a throw-down signal processor, a simple point-to-point link for up to 12 bi-directional HD signals, or part of a large de-centralized router – but it can even serve as a MultiViewer or a bridge between MediorNet networks and IP network.
