

FOR SALE

4x Used Sony L770 View Finder

Key Facts:

7" Full HD LCD (1920×1080)

Shares the same professional chassis as the OLED-based HDVF-EL75, but uses a high-resolution LCD panel instead of OLED

One of Sony's most versatile viewfinders thanks to dual 20-pin and 26-pin interfaces, allowing compatibility across multiple camera generations

Features a built-in Waveform Monitor (WFM) for accurate exposure monitoring directly in the viewfinder

Includes 3G-SDI input, enabling monitoring of external video sources without an additional monitor

Large Full HD screen provides near-monitor-level focus accuracy, making it especially suitable for 4K production workflows

Six assignable buttons allow operators to customize the workflow for sports, studio, and OB environments

Combines the functions of a broadcast viewfinder and field monitor in a single device, which is its biggest advantage over most Sony EVF models

Compatible Cameras:

Sony HDC series

Sony HSC series

Sony HXC series (including HXC-D70)

Sony XDCAM broadcast camcorders

Sony PMW-F55

Sony PMW-F5

Sony F65

Other Sony cameras supporting 20-pin or 26-pin broadcast viewfinder interfaces

Equipment in top condition
