High Power Amplifier Controller / Satellite Uplink Control Unit

ND SatCom HPA E200 A control units - front view

Rear connection overview

Up to 5x used ND SatCom HPA E200 A control units for professional satellite uplink and SNG applications. The units provide local HPA operation and monitoring through a dedicated front-panel interface and remote/control connections on the rear.

- Designed for control and monitoring of ND SatCom high-power amplifiers (HPA)
- Front-panel display, metering selection, numeric keypad and dedicated transmit/RF controls
- Rear interfaces for Alarm, RS485 Remote and Serial (HPA) communication
- AC IN / AC OUT connections for rack-based uplink installations
- Used professional broadcast / satellite equipment
