Used Ross Ultrix-FR-12 Routing System

Technical Specifications:

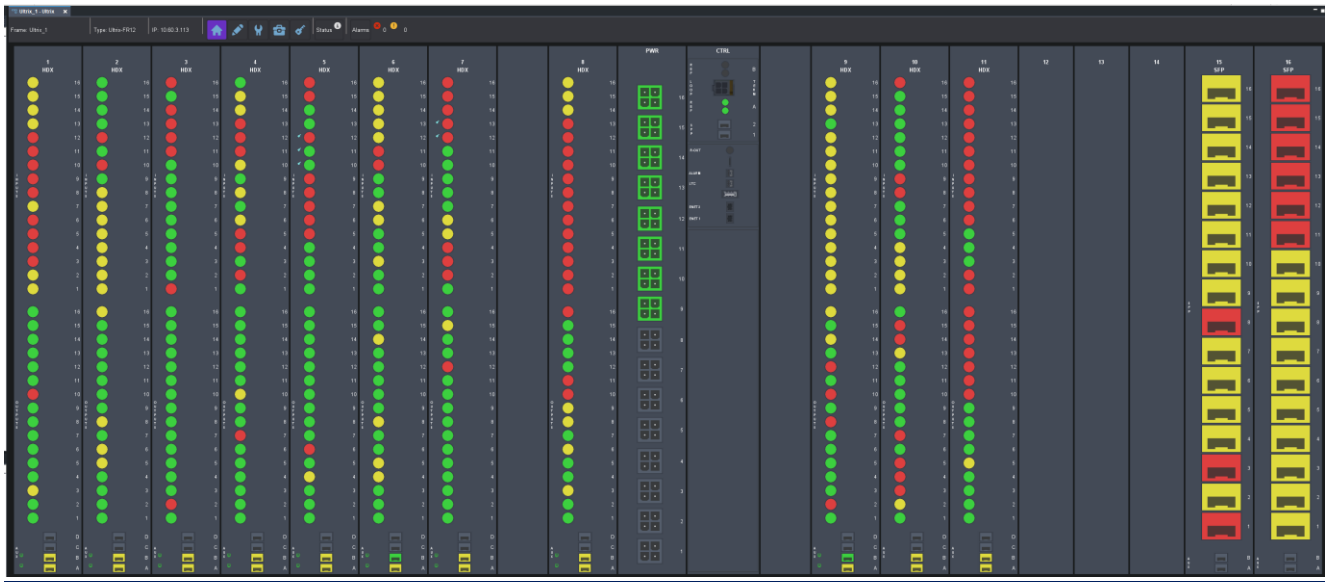

ULTRIX-FR-12: Up to 288x288 including 32 AUX 1/0 ports. Supports most common SMPTE 259M, 292M, 344M, and 424M (support for most common SMPTE 2082 signals is included with optional 12G Ultraspeed license). Includes Ultrimix and Ultriclean licenses. Ultrimix allows for routing, mixing, and processing of all embedded audio inputs, as well as the ability to support up to 2048x2048 discrete mono audio inputs through the use of the AUX 1/0 ports. UL TRIX-FR12 ships with x2 Ultripower 1 RU rackmount power frame with primary power supply module installed in each Ultripower frame. Ultricore-BCS is required and must be added to the system.
