Coming with case

Price on request:

Excl. VAT

Excl. shipping & insurance costs

Excl. custom fees

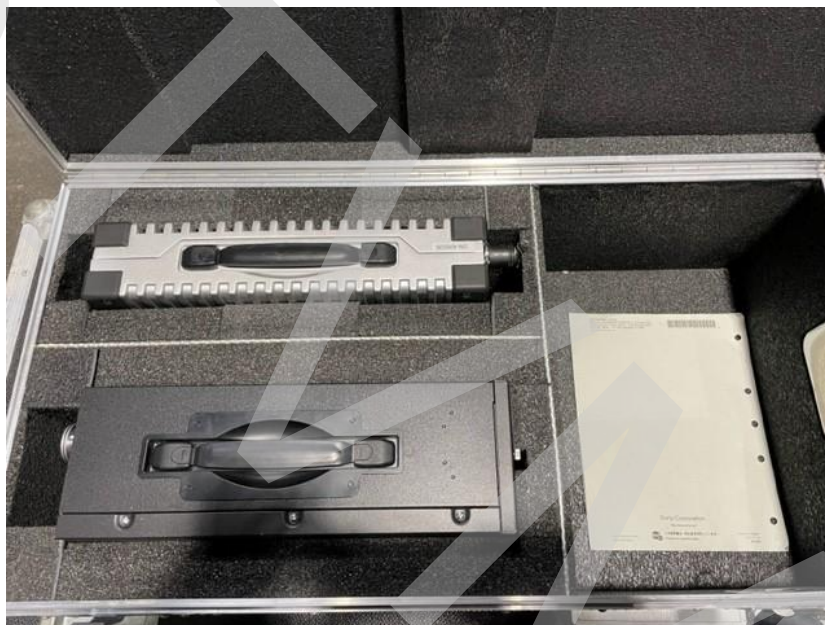

Technical specification:

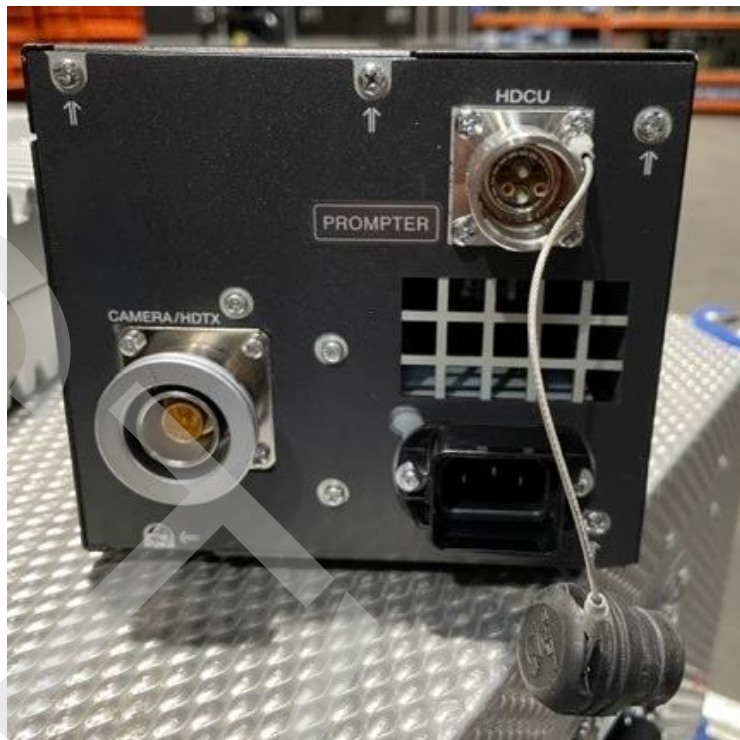

Converts the transmission format over fiber optic cable to the common triax format.

The HD-Triax adapters HDTX100 and HDFX100 HD considerably expand the possible uses of the camera HDC1000/HDC1500.

By converting the transmission format over fiber optic cable to the widely used triax transmission format, the high-quality recordings of an HDC-1000 or HDC-1500 can be transmitted over long distances - up to up to 1400 m with a triax cable with a diameter of 14.5 mm or 1000 m with a triax cable with a 13.2 mm diameter.
