

FOR SALE

2x Used the t.amp D4-500 Pro Digital Amplifiers

Compact four-channel Class-D power amplifiers for professional PA, monitor and fixed-installation applications. The D4-500 combines four independent amplifier channels with a space-saving 19-inch / 1U design.

Use case: Multi-channel amplification for PA systems, stage monitors, installed sound and other professional audio applications.

General features: 4-channel Class-D design, front-panel level controls, signal / clip indication, thermal and fault indicators, temperature-controlled cooling and bridge operation support.

Output power: 4 x 500 W at 4 ohms or 4 x 250 W at 8 ohms per amplifier.

Connections: Four balanced combo inputs and four Speaker Twist loudspeaker outputs per amplifier.

Rack format: 19-inch / 1U chassis per amplifier with a short installation depth of approximately 240 mm.
