

FOR SALE

**up to 6x brand new GV LDX 86 Universe camera chains
coming with full warranty
the equipment was produced in 2018**

3 times SSL and 6 times SSL HD license on all camera chains

With the LDX 86 Universe system camera, you no longer need to choose between a higher frame rate like 6X, or higher resolution for 4K UHD — you can have both in a single camera. You can even upgrade to LDX 86 Universe features from other LDX 86 Series cameras when you need to, on a 1-day, 7-day or perpetual basis. This advanced multiformat (HD/3G/4K UHD) and multispeed (1X/3X/6X) content acquisition system is combined with outstanding image performance, excellent light sensitivity and the ability to use standard HD lenses. This allows broadcasters and content creators to use the same workflows they use for HD, while delivering the best HD/3G high-speed slow-motion or 4K UHD viewing experience possible. Plus you also get extended color gamut supporting ITU-R BT.2020 and the option to software upgrade to enable 15 F-stops of high dynamic range (HDR) in single-speed operation.

6x Grass Valley LDX 86 Universe camera chains :		
Qty	Serial Number	Description
